## Township 10 North, Range 4 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of the dependent resurvey of the north boundary, a portion of the west boundary, and a portion of the subdivisional lines of T. 10 N., R. 4 E., Salt Lake Meridian, Utah.

The history of earlier surveys is as follows:

T. 10 N., R. 4 E.

Surveyed by      Retr. or Resurveyed by

SOUTH BOUNDARY

All	J.H. Martineau		
	1878		
All		J.H. Martineau	1881
All		R. Gentry and	
		A.C. Alberga	1940
SE Tp. Cor.		Miller, Hoister,	
		Dougall & Rathbone	1914

EAST BOUNDARY

All	J.H. Martineau		
	1878		
All		J.H. Martineau	1881
		E. Bird	1938

NORTH BOUNDARY

All	J.H. Martineau		
	1881		
All		A.P. Hanson and	
		H.E. Giers	1900
E. 5 miles control		E. Bird	1938
NW Tp. Cor.		F. Reynolds	1968

WEST BOUNDARY

S. 2 miles	J.H. Martineau		
	1878		
S. 2 miles		J.H. Martineau	1881
N. 4 Miles	J.H. Martineau		
	1881		
All		Nephi R. Anderson	1891

Certain corners were remonumented by F. Reynolds in 1968 under the remonumentation cooperative agreement between the U.S. Forest Service and the BLM.

SUBDIVISION

All	J.H. Martineau		
	1881		

Certain corners were remonumented by E. Bird in 1949 under the remonumentation cooperative agreement between the U.S. Forest Service and the BLM.

An investigation revealed the existence of a hiatus, now designated T. 10½ N., R. 4 E., between the north boundary of T. 10 N., R. 4 E., and the south boundary of T. 11 N., Rs. 4 and 5 E.

Township 10 North, Range 4 East, Salt Lake Meridian, Utah

CHAINS

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, the Special Instructions dated June 6, 1978, and the memorandum dated October 29, 1979, from the Chief, Cadastral Survey Examination and Approval Staff.

The directions of the lines refer to the true meridian, determined by sustained angulation from azimuths obtained by hour angle observations on Polaris, and only true line bearings are given in these field notes.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southwest corner of Sec. 36, T. 10 N., R. 4 E., as determined from a tie to U.S.C. and G.S. station "Red Spur", located in Sec. 5, T. 10 N., R. 5 E., is:

Latitude 41° 33' 16.0" N. Longitude 111° 26' 31.1" W.

The mean magnetic declination is 15° 20' East.

Dependent Resurvey of the North Boundary of  
T. 10 N., R. 4 E., Salt Lake Meridian, Utah

(Reestablishment of the Survey Executed by  
J.H. Martineau in 1881)

From the cor. of Tps. 10 N., Rs. 4 and 5 E., monumented with an iron post, 3 ins. diam., firmly set, projecting 10 ins. above ground, with brass cap mkd. as described in the official record of the 1938 resurvey of the N. bd. of T. 10 N., R. 5 E., from which the 1938 bearing trees

A subalpine fir, 13 ins. diam., bears S. 33° E.,  
60 lks. dist., mkd. T10N R5E S6 BT.

A subalpine fir, 14 ins. diam., bears S. 9° 30' W.,  
48 lks. dist., mkd. T10N R4E S1 BT.

This cor. now functions as the cor. of T. 10 N., Rs. 4 and 5 E., and the cor. of sec. 36, T. 10½ N., R. 4 E.

I change the marks on the cap to

CHAINS

39.43 The ¼ sec. cor. of secs. 4 and 5, monumented with a wooden post, 2½ ins. diam., 4 ft. long, loosely set 6 ins. in the ground, and in a mound of stone, 2 ft. base, 1 ft. high. This position is accepted as a careful and faithful perpetuation of the position of the original corner.

At the corner point

Set an iron post, 30 ins. long, 2½ ins. diam., 22 ins. in the ground, and in a collar of stone, with brass cap mkd.

from which

A twin juniper, 6 ins. diam., bears N. 50° E.,  
110 lks. dist., mkd. ¼ S4 BT.

A mahogany, 10 ins. diam., bears S. 72½° W.,  
47 lks. dist., mkd. ¼ S5 BT.

Set the wooden post and a steel fence post alongside the iron post.

Cor. is located on S slope.

N. 2° 09' E., beginning new measurement.

39.22 The cor. of secs. 4, 5, 32, and 33, Tps. 10 and 10½ N.,  
R. 4 E., hereinbefore described.

From the cor. of secs. 29, 30, 31, and 32, monumented with a sandstone, 21 x 16 x 14 ins., firmly set 12 ins. in the ground, in a collar of stone, no marks were found, from which two unrecorded bearing trees

A pinon pine, 20 ins. diam., bears S. 64° W.,  
17½ lks. dist., mkd. with illegible scribing  
on a nearly healed blaze.

A pinon pine, 10 ins. diam., bears N. 50° W.,  
36 lks. dist., mkd. 30 T10N R4E.

This position is harmoniously related to existing original corners and is accepted as the best available evidence of the original corner position.

At the corner point

Set an aluminum post, 30 ins. long, 2½ ins. diam., 22 ins. in the ground, and in a collar of stone, with aluminum cap mkd.

The terrain is generally mountainous, with several major canyons draining westerly through the area. Elevation varies from 5800 to 8900 feet above sea level.</p> <p>Fir, aspen, juniper, mahogany, and sagebrush comprise the bulk of the vegetation. The soil is mostly poor and rocky.</p> <p>All of the roads in the vicinity are rough and most are merely unimproved trail roads sometimes requiring special traction vehicles.</p> <p>There are two perennial streams in the area, namely Blacksmith Fork and Curtis Creek, both of which are spring fed and drain to Blacksmith Fork Canyon.</p> <p>The only permanent dwelling within the survey area is in sec. 2, T. 10 N., R. 4 E. Grazing, logging and recreation appear to be the most important uses of the land.</p> <p>The mean magnetic declination is an average transcribed from the latest maps compiled by the U.S. Geological Survey.</p>

CERTIFICATE OF SURVEY

~~(XXX)~~We), Glen B. Hatch, Frank C. Profaizer and Gary L. Kratz, HEREBY  
CERTIFY upon honor that, in pursuance of special instructions bearing date of the 6th day  
of June, 1978, ~~(XXX)~~We have dependently resurveyed the north  
boundary, a portion of the west boundary and a portion of the subdivisional  
lines of Township 10 North, Range 4 East,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by ~~me~~ <sup>XXXX</sup> (us) and under ~~my~~ <sup>XXXX</sup> (our) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

All			Leo A. Snow      1908

SUBDIVISIONS

All	Leo A. Snow	1908	
Sec. 32			E. Bird and A. Nelson 1941

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated April 11, 1980.

The directions of the lines of this survey were determined by reference to the true meridians established on line by hour angle observations on Polaris carried forward by sustained angulation, being supplemented by numerous other observations on Polaris taken throughout the progress of the survey.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of the township is at Latitude 37° 16' 52.9" N. and Longitude 112° 41' 10.7" W., as determined by a tie to U.S.G.S. triangulation station "3-136X" located in section 13, T. 40 S., R. 9 W.

The mean magnetic declination is 14½° E.

	<p>General Description</p> <p>The area resurveyed within T. 40 S., R. 8 W., Salt Lake Meridian, is generally broken mountainous land throughout. The elevation ranges from 5600 ft. in the extreme SE portion to 7850 ft. in the NW portion. The soil varies from clay to very sandy or rocky. The vegetation consists of shadscale, sagebrush, oak, service berry, buckbrush, bunchgrass, chokecherry, Utah juniper, Rocky Mountain red cedar, pinon, aspen, and ponderosa pine.</p> <p>Muddy Creek is the largest stream of water, entering the township on the N. bdy. of sec. 2 and flowing through the following secs. 11, 12, 13, 24, and 25, leaving the township on the S. bdy. of sec. 36.</p> <p>Access is limited to several dirt and trail roads, mostly unimproved.</p>

T. 40 S., R. 8 W., Salt Lake Meridian, Utah

## CHAINS

The principal use of the area is livestock grazing, commercial lumber and some mining.

The average of a number of readings along the lines resurveyed gives a mean magnetic declination of  $14^{\circ} 15'$  E., with very little local attraction.

CERTIFICATE OF SURVEY

(I) ~~(We)~~ Jerry L. Thomas, Supervisory Cadastral Surveyor, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 11th day of April, 1980, (I) ~~(We)~~ have dependently resurveyed the Eighth Standard Parallel South, through a portion of Range 8 West, the north and west boundaries, and a portion of the subdivisional lines of Township 40 South, Range 8 West,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~(us)~~ and under (my) ~~(our)~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

November 9, 1982  
(Date)

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of the Eighth Standard Parallel South, through a portion of Range 8 West, the north and west boundaries, and a portion of the subdivisional lines of T. 40 S., R. 8 W., Salt Lake Meridian, Utah

executed by Jerry L. Thomas, Supervisory Cadastral Surveyor  
having been critically examined and found correct, are hereby approved.

February 15, 1983

## Township 39 South, Range 9 West, Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of the dependent resurvey of the south, west and north boundaries and portions of the east boundary and subdivisional lines of Township 39 South, Range 9 West, Salt Lake Meridian, Utah.

The north boundary was surveyed in 1893 by William Lewman. The east boundary was surveyed in 1897 by A.B. Lewis. In 1898 A.P. Hanson surveyed the south and west boundaries and subdivisional lines and retraced portions of the north boundary. The west 1 mile of the south boundary was retraced in 1909 by S.P. Stewart and F.L. French. In 1941 Andrew Nelson and Elliot Bird resurveyed the boundaries of section 24 and a portion of the subdivisional lines of section 24.

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated April 11, 1980.

Preliminary to the resurvey the lines of the original survey were retraced and a search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions of the lines refer to the true meridian as determined by observations on Polaris projected by fore- and backsights.

The geographic position of the southeast corner of the township was determined by a tie to U.S.G.S. Triangulation Station, "3-136X located in sec. 13, T. 40 S., R. 9 W., is as follows:

Latitude  $37^{\circ} 22' 11.0''$  N. Longitude  $112^{\circ} 47' 27.6''$  W.

The mean magnetic declination is  $14^{\circ} 25'$  East.

Dependent Resurvey of the South Boundary of  
T. 39 S., R. 9 W., Salt Lake Meridian, Utah

(Reestablishment of the Survey Executed by  
A.P. Hanson in 1898)

Beginning at the cor. of Tps. 39 and 40 S., Rs. 8 and 9 W., monumented with an iron post,  $2\frac{1}{2}$  ins. diam., firmly set in the ground, with brass cap, mkd. as described in the concurrent resurvey of the W. bdy. of T. 40 S., R. 8 W.

N.  $89^{\circ} 26'$  W., bet. secs. 1 and 36.

Over a rolling plateau, through scattered oak and ponderosa pine.

39.99

The  $\frac{1}{4}$  sec. cor. of secs. 1 and 36, monumented with a sandstone,  $24 \times 12 \times 6$  ins., firmly set in a mound of stone, projecting 6 ins. above the ground, plainly mkd.  $\frac{1}{4}$  on N face.

Dependent Resurvey of the South Boundary of  
T. 39 S., R. 9 W., Salt Lake Meridian, Utah

## CHAINS

At the corner point

Set an aluminum post, 30 ins. long,  $2\frac{1}{2}$  ins. diam., 8 ins. in the ground to solid rock, and in a mound of stone, 4 ft. base, to top of aluminum cap, mkd.

T 39 S R 9 W

#### General Description

Township 39 South, Range 9 West is located about 12 miles  
northwest of Orderville, Utah, and is all mountainous  
land. The elevation varies from about 5,900 to 8,150 ft.  
above sea level. The soil varies from sandy clay loam  
and rocky in the higher elevation to sandy clay loam and  
gravelly in the bottom land. The vegetation consists of  
sagebrush, bunchgrass, juniper, pinon, oak, and some  
timber of very little value in the higher elevation.

There were some coal deposits scattered throughout the  
northern portion of the township. Currently, the  
principal users of the township are cattlemen.

## Township 39 South, Range 9 West, Salt Lake Meridian, Utah

CHAINS

Access into the area is provided by very few trail roads throughout the township.

The average of readings throughout the area resurveyed gives a mean magnetic declination of  $14^{\circ} 25'$  East.

## CERTIFICATE OF SURVEY

(I) ~~XXX~~ Jerry L. Thomas

, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 11th day of April, 1980, (I) ~~XXX~~ have dependently resurveyed the south, west and north boundaries and portions of the east boundary and subdivisional lines of Township 39 South, Range 9 West

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~XXX~~ and under (my) ~~XXX~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

September 27, 1982

## Township 1 North, Range 7 West, Uintah Meridian Utah

## CHAINS

The following field notes describe the dependent resurvey of a portion of the subdivisional lines of Township 1 North, Range 7 West, Uintah Meridian, Utah.

The history of previous surveys is as follows: the east boundary was surveyed by Harvey D. Heist in 1903. The north, south and east boundaries and the subdivisional lines were surveyed by Francis M. Lyman, Jr., in 1903, which was cancelled. In 1905 Francis M. Lyman, Jr., redid his survey so it could be approved. In 1905 Ollice E. Brashears resurveyed the north 3 miles of the west boundary. The corner of sections 13, 18, 19, and 24 on the west boundary and the  $\frac{1}{4}$  section corner of sections 17 and 20 were remonumented by Andrew Nelson in 1963 under the remonumentation cooperative agreement between the U.S. Forest Service and the Bureau of Land Management.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 604, Utah, dated August 22, 1980.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulation, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original corners or other calls of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the corner of secs. 13, 18, 19, and 24, on the E. bdy. of the township, as determined from a tie made to United States Coast and Geodetic Survey triangulation station "FARM CREEK PASS," located in NW $\frac{1}{4}$  of sec. 25, T. 1 N., R. 7 W., Uintah Meridian, is as follows:

Latitude 40° 28' 29.54" N. Longitude 110° 37' 06.99" W.

The mean magnetic declination is 14° 30' E.

Dependent Resurvey of a Portion of the Subdivisional Lines of T. 1 N., R. 7 W., Uintah Meridian, Utah

(Reestablishment of the Survey Executed by Francis M. Lyman in 1905)

Beginning at the cor. of secs. 13, 18, 19, and 24, on the E. bdy. of the Tp., monumented with a trachyte stone, 20 x 12 x 6 ins., dimly mkd. 3 notches on N and S edges, firmly set, projecting 8 ins. above ground, with a scattered mound of stone to the W.

Dependent Resurvey of a Portion of the Subdivisional Lines,  
T. 1 N., R. 7 W., Uintah Meridian, Utah

## CHAINS

from which an original bearing tree

PARTIAL SUBDIVISIONAL SURVEY OF SECTION 30

OF

TOWNSHIP 7 NORTH, RANGE 1 EAST

Of the Salt Lake Meridian,

In the State of Utah

EXECUTED BY

Gary L. Kratz Supervisory Cadastral Surveyor

Under special instructions dated May 16, 19 80, approved May 16, 1980,

, which provided for the surveys included under U.S. Survey/Group  
Number 601, and assignment instructions dated May 16, 19 80.

Survey commenced June 12, 19 80

Survey completed July 24, 19 80

R605  
224

## Township 7 North, Range 1 East, Salt Lake Meridian, Utah

## CHAINS

The following field notes are those of the dependent resurvey of a portion of the Salt Lake Meridian (west boundary), a portion of the south boundary, a portion of the subdivisional lines and a partial subdivisional survey of section 30, T. 7 N., R. 1 E., Salt Lake Meridian, Utah.

HISTORY OF SURVEYS

T. 7 N., R. 1 E.

Surveyed by      Retr. or Resurveyed by

WEST BOUNDARY (Salt Lake Meridian)

N. 2 miles	J. Fewson Smith	1871
S. 4 miles	Arthur F. Benson	1887
N. 2 miles	Arthur F. Benson	1887

SOUTH BOUNDARY

E. 5 miles	J. Fewson Smith	1871
E. 5 miles	Arthur F. Benson	1887
W. 1 mile	Arthur F. Benson	1887
All	Nephi P. Anderson	1892
All, except S. Bdy., Sec. 32	Glen B. Hatch	1968

SUBDIVISION

Portion	J. Fewson Smith	1871
Portion	Arthur F. Benson	1887
Portion	Arthur F. Benson	1887

The survey was executed in accordance with the specifications set forth in the Manual of Survey Instructions, 1973, and the Special Instructions dated May 16, 1980.

The directions of lines refer to the true meridian as determined by observations of Polaris and direct altitude observations of the sun, projected by fore- and backsights.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only true line field notes are given herein.

The geographic position of the southeast corner of sec. 32, T. 7 N., R. 1 E., scaled from United States Geological Survey quad map, is as follows:

Latitude 41° 17.6' N.      Longitude 111° 51.2' W.

The mean magnetic declination is 16° E.

		General Description
		Township 7 North, Range 1 East, is located in north-eastern Weber County, Utah. The portion of the township resurveyed lies near the town of Liberty. Surfaced roads provide access to the base of the mountains and North Ogden Canyon. A foot trail maintained by the U.S. Forest Service runs along the main ridge of the Wasatch Mountains.
		The area resurveyed lies along a steep broken east slope of the Wasatch Mountains. The elevation varies from 5200 to 8100 feet above sea level. Several intermittent streams drain into the North Fork of the Ogden River. The soil is rocky and of poor quality. Vegetation is predominately oak and maple brush with scattered stands of fir.
		The Nordic Valley ski area is located in sections 29, 31, and 32. There are several summer homes in the NE¼ of section 30. Farming and recreation appear to be the dominant land uses of the area.
		The mean magnetic declination was transcribed from the U.S. Geological Survey 7½' quadrangle map "HUNTSVILLE, UTAH."

## CERTIFICATE OF SURVEY

(I) ~~WEX~~ Gary L. Kratz, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 16th day

of May, 1980, (I) ~~WEX~~ have dependently resurveyed a portion of the Salt Lake Meridian (West Boundary), a portion of the south boundary, a portion of the subdivisional lines with a partial subdivisional survey of section 30, T. 7 N., R. 1 East,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~WEX~~ and under (my) ~~WEX~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

June 4, 1982

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the Salt Lake Meridian (West Boundary), a portion of the south boundary, a portion of the subdivisional lines with a partial subdivisional survey of section 30, T. 7 N., R. 1 E., Salt Lake Meridian, Utah

executed by Gary L. Kratz, Supervisory Cadastral Surveyor

having been critically examined and found correct, are hereby approved.

January 11, 1983

(Date)

*Glen B. Hates*

(Chief, Cadastral Survey Examination and Approval Staff)  
Chief Cadastral Surveyor for Utah

## CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in is a true copy of the original field notes.

Of the Salt Lake Meridian,  
In the State of Utah

EXECUTED BY

Glen B. Hatch Supervisory Cadastral Surveyor

Frank C. Profaizer Supervisory Cadastral Surveyor

Gary L. Kratz Supervisory Cadastral Surveyor

Under special instructions dated June 6, 19 78, approved June 9, 1978,

, which provided for the surveys included under U.S. Survey/Group  
Number 580, and assignment instructions dated July 17, 19 78.  
and June 14, 1979

Survey commenced August 28, 19 78

Survey completed October 8, 19 81

Township 10½ North, Range 4 East, Salt Lake Meridian, Utah

CHAINS	<p>The following field notes are those of the dependent resurvey of a portion of the south boundary of T. 11 N., R. 5 E., a portion of the south boundary of T. 11 N., R. 4 E., and the survey of the subdivisional lines of T. 10½ N., R. 4 E., Salt Lake Meridian, Utah.</p> <p>The history of earlier surveys is as follows:</p> <p style="text-align: center;"><u>T. 10½ N., R. 4 E.</u></p> <table border="0" style="margin-left: auto; margin-right: auto;"><tr><td style="text-align: center;"><u>Surveyed by</u></td><td style="text-align: center;"><u>Retr. or Resurveyed by</u></td></tr></table> <p><u>SOUTH BOUNDARY</u></p> <table border="0" style="width: 100%;"><tr><td style="width: 30%;">All</td><td style="width: 30%;">J.H. Martineau</td><td style="width: 40%; text-align: right;">1881</td></tr><tr><td>All</td><td></td><td style="text-align: right;">G.B. Hatch, G.L. Kratz, and F.C. Profaizer 1978 concurrently under this same group</td></tr></table> <p><u>NORTH BOUNDARY</u></p> <table border="0" style="width: 100%;"><tr><td style="width: 30%;">Portion</td><td style="width: 30%;">J.H. Martineau</td><td style="width: 40%; text-align: right;">1878</td></tr><tr><td>Portion</td><td>A.P. Hanson and H.E. Giers</td><td style="text-align: right;">1900</td></tr><tr><td>E. 5 miles - Control tie</td><td style="text-align: center;">E. Bird</td><td style="text-align: right;">1938</td></tr></table> <p>An investigation revealed the existence of a hiatus, now designated T. 10½ N., R. 4 E., between the north boundary of T. 10 N., R. 4 E., and the south boundary of T. 11 N., Rs. 4 and 5 E. Pursuant to the memorandum dated October 29, 1979, from the Chief, Cadastral Survey Examination and Approval Staff, concerning the survey of the north boundary of T. 10½ N., R. 4 E., the ¼ section corners of minimum control were not monumented.</p> <p>The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, the Special Instructions dated June 6, 1978, and the memorandum dated October 29, 1979, from the Chief, Cadastral Survey Examination and Approval Staff.</p> <p>The directions of the lines refer to the true meridian, determined by sustained angulation from azimuths obtained by hour angle observations on Polaris, and only true line bearings are given in these field notes.</p> <p>Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the record. The retracement data were thoroughly verified and only the true line field notes are given herein.</p> <p>The geographic position of the east corner of Sec. 36, T. 10½ N., R. 4 W., as determined from a tie to U.S.C. and G.S. station "Red Spur", located in Sec. 5, T. 10 N., R. 5 E., is:</p> <p style="text-align: center;">Latitude 41° 38' 27.3" N. Longitude 111° 25' 24.8" W.</p> <p>The mean magnetic declination is 15¼° East.</p>	<u>Surveyed by</u>	<u>Retr. or Resurveyed by</u>	All	J.H. Martineau	1881	All		G.B. Hatch, G.L. Kratz, and F.C. ## CERTIFICATE OF SURVEY

~~(XXXWe)~~, Glen B. Hatch, Frank C. Profaizer and Gary L. Kratz, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 6th day

of June, 1978, ~~(XXXWe)~~ have dependently resurveyed a portion of the south boundary of T. 11 N., R. 5 E., a portion of the south boundary of T. 11 N., R. 4 E., and the survey of the subdivisional lines of Township 10½ North, Range 4 East,

of the Salt Lake Meridian, in the State of Utah, which

are represented in the foregoing field notes as having been executed by ~~(XXX)~~ (us) and under ~~(XXX)~~ (our) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the south boundary of T. 11 N., R. 5 E., and a portion of the south boundary of T. 11 N., R. 4 E., and the survey of the subdivisional lines of T. 10½ N., R. 4 E., Salt Lake Meridian, Utah

executed by Glen B. Hatch, Supervisory Cadastral Surveyor  
Frank C. Profaizer, Supervisory Cadastral Surveyor  
Gary L. Kratz, Supervisory Cadastral Surveyor  
having been critically examined and found correct, are hereby approved.

Township 12 South, Range 18 West, Salt Lake Meridian, Utah

CHAINS

The following field notes are those of a dependent resurvey of a portion of the Willow Springs Guide Meridian (East Boundary); a portion of the subdivisional lines and the survey of the subdivision of section 12, and the resurvey of the exterior lines of Mineral Surveys No. 6109A and 7286, located in sections 21 and 28 of Township 12 South, Range 18 West, Salt Lake Meridian, Utah

The east boundary (Willow Springs Guide Meridian), was surveyed by T.C. Bailey in 1882 and resurveyed by Alonzo J. Stookey in 1897 and Elliot Bird in 1950. The south boundary was surveyed by T.C. Bailey in 1882; resurveyed by Harry A. Rager in 1907, and the east 4 miles resurveyed by Elliot Bird in 1950. The southeast portion of the subdivisional lines were surveyed by Harry A. Rager in 1907-1909, and a portion resurveyed by John W. Dougall in connection with the completion survey in 1915.

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 607, Utah, dated May 4, 1981.

The direction of the lines of this survey were determined by reference to true meridians established on line by hour angle observations on Polaris. They were carried forward by sustained angulation, being supplemented by numerous other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic means along survey lines where accessible.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original corners or other calls of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of section 25, as determined by ties to U.S.C. & G.S. BM "T 75", located in section 31, T. 12 S., R. 17 W., is as follows:

Latitude 39° 44' 23.8" N. Longitude 113° 48' 54.4" W.

The mean magnetic declination is 15° 15' E.

Dependent Resurvey of a Portion of the Willow Springs Guide Meridian (East Boundary) of T. 12 S., R. 18 W., Salt Lake Meridian, Utah

(Restoring the Survey Executed by T.C. Bailey in 1882, and the Resurveys by Alonzo J. Stookey in 1897 and Elliot Bird in 1950)

Beginning at the cor. of secs. 7, 12, 13, and 18, on the E. bdy. of the Tp., monumented with an iron post, 3 ins. diam., firmly set in a mound of stone, with brass cap, mkd. as described in the official record of the resurvey of a portion of the Willow Springs Guide Meridian in 1950.

Dependent Resurvey of a Portion of the  
Willow Springs Guide Meridian (East Boundary) of  
T. 12 S., R. 18 W., Salt Lake Meridian, Utah

CHAINS	
	N. 0° 05' W., bet. secs. 7 and 12.  Over rolling desert land, draining E.
20.085	Point for the S 1/16 sec. cor. of secs. 7 and 12.  Set an aluminum post, 30 ins. long, 2½ ins. diam., 24 ins. in the ground, and in a collar of stone, with aluminum cap mkd.  T 12 S R 18 W R 17 W S 1/16  S 12   S 7  1981
40.17	The ¼ sec. cor. of secs. 7 and 12, monumented with an iron post, 1 in. diam., firmly set, extending 10 ins. above ground, with brass cap, mkd. as described in the official record of the resurvey of a portion of the Willow Springs Guide Meridian in 1950.
	Dependent Resurvey of a Portion of the Subdivisional Lines, T. 12 S., R. 18 W., Salt Lake Meridian, Utah
	(Restoring the Survey Executed by Harry A. Rager in 1909)  From the cor. of secs. 25, 30, 31, and 36, on the E. bdy. of the Tp., monumented with an iron post, 3 ins. diam., firmly set in a mound of stone, with brass cap, mkd. as described in the official record of the resurvey of a portion of the Willow Springs Guide Meridian in 1950.  From this cor., U.S.C. & G.S. triangulation station and bench mark, bears S. 72° 56' E., 39.304 chs. dist., monumented with a standard brass tablet set in a concrete post, with brass caps mkd. "T75 1943".  S. 89° 52' W., bet. secs. 25 and 36, along sectional correction line.  Over rolling desert land; asc. over gentle E slope.
40.12	The ¼ sec. cor. of secs. 25 and 36, monumented with a granite stone, 14 x 12 x 5 ins., firmly set 6 ins. in the ground and plainly mkd. ¼ on N face.  At the corner point  Set an iron post, 30 ins. long, 2½ ins. diam., 15 ins. in the ground to bedrock, and in a mound of stone, 3½ ft. base, to top of brass cap, mkd.  T 12 S R 18 W S 25 ¼ S 36 1981  Bury the mkd. stone alongside the iron post.

 CERTIFICATE OF SURVEY

(I) ~~(W&X)~~ Craig P. Sylvester

, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 4th day

of May, 19 81, (I) ~~(W&X)~~ have dependently resurveyed a portion of the Willow Springs Guide Meridian (East Boundary); a portion of the subdivisional lines and surveyed the subdivision of section 12, and resurveyed the exterior lines of Mineral Surveys No. 6109A and 7286, located in sections 21 and 28 of Township 12 South, Range 18 West,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~(W&X)~~ and under (my) ~~(W&X)~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

Township 25 South, Range 19 East, Salt Lake Meridian, Utah

CHAINS

The following field notes are those of the dependent re-survey of a portion of the south boundary of T. 24 S., R. 19 E., the dependent resurvey of a portion of the subdivisional lines and the survey completing the subdivisional lines of Township 25 South, Range 19 East, Salt Lake Meridian, Utah.

The north boundary was surveyed by Rathbone and Mason in 1916 and the east 3½ miles resurveyed by L.P. Lewis and C.A. Swiateck in 1954. The south boundary (Fifth Standard Parallel South) was surveyed by C.F. Moore in 1928. The east boundary was surveyed by C.F. Moore and R.C. Yundt in 1928. The west boundary and a portion of the subdivisional lines were surveyed by L.P. Lewis and C.A. Swiateck in 1954.

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated July 6, 1981.

The directions of the lines of this survey were determined by reference to true meridians established on line by hour angle observations on Polaris. They were carried forward by sustained angulation, being supplemented by numerous other observations on Polaris taken throughout the progress of the survey.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position for the southwest corner of section 35, as determined from a tie made to U.S.G.S. triangulation station "7 MILE", located in section 11, is:

Latitude 38° 34' 45.5" N.      Longitude 109° 48' 02.0" W.

The magnetic declination was read at a number of stations throughout the township and the average of the several readings was found to be 13° 30' East.

Dependent Resurvey of a Portion of the South Boundary of T. 24 S., R. 19 E., Salt Lake Meridian, Utah

(Restoring the Survey by Rathbone and Mason in 1916)

Beginning at the cor. of Tps. 24 and 25 S., Rs. 18 and 19 E., monumented with an iron post, 3 ins. diam., firmly set and projecting 15 ins. above ground, with brass cap mkd. as described in the official record of the 1916 survey.

S. 89° 55' E., along the S. bdy. of sec. 31.

Over rolling sandy land, through sagebrush, bunch grass, and lightly scattered pinon growth.

38.11

Point for the ¼ sec. cor. of sec. 6 only, T. 25 S., R. 19 E., hereinafter described.

## CERTIFICATE OF SURVEY

(I) ~~(We)~~ Gail E. Reynolds, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 6th day of July, 1981, (I) ~~(We)~~ have dependently resurveyed a portion of the south boundary of Township 24 South, Range 19 East, and dependently resurveyed a portion of the subdivisional lines and completed the survey of the subdivisional lines of Township 25 South, Range 19 East

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~(We)~~ and under (my) ~~(Our)~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

March 31, 1983

The ¼ sec. cor. of secs. 20 and 29, was remonumented in 1968 by Ferrel D. Reynolds under the remonumentation cooperative agreement between the U.S. Forest Service and the BLM.

The resurvey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 602, Utah, dated July 23, 1980.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun and by hour angle observations on Polaris. The lines were carried forward by sustained angulation, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Township 10 North, Range 1 West, Salt Lake Meridian, Utah

CHAINS	<p>Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original corners or other calls of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.</p> <p>The geographic position of the corner of secs. 31 and 32, on the S. bdy. of the township, as determined from a tie made to the United States Coast and Geodetic Survey Triangulation station "BOX" located in the NE¼ of sec. 1, T. 10 N., R. 2 W., Salt Lake Meridian, Utah, is as follows:</p> <p>Latitude 41° 33' 14.50" N. Longitude 111° 59' 10.75" W.</p> <p>The mean magnetic declination is 15° 30' E.</p> <p>Dependent Resurvey of the North 1 Mile of the Township Boundary Bet. 	<p style="text-align: center;">General Description</p> <p>The land encompassed in this survey is located within a portion of the Cache National Forest and Cache County along with Box Elder County.</p> <p>Drainage is generally to the northeast by way of Wellsville Canyon, Snow Canyon, Stoddard Canyon, Rattlesnake Canyon, Pine Canyon, Wide Canyon, Narrow Canyon, Sardine Canyon, Silver Mine Hollow, Garretts Hollow, Cookys Hollow, McMurdie Hollow, and McBride Hollow. There is a small body of water called Dry Lake encircling the cor. of secs. 28, 29, 32, and 33, which is dry during the late summer and fall months. The elevation varies from 4,800 ft. at the cor. of secs. 3, 4, 33, and 34, on the north boundary of the township to 9,200 ft. between secs. 1 and 6 on the west boundary of the township.</p>

## Township 10 North, Range 1 West, Salt Lake Meridian, Utah

## CHAINS

Access is by way of State Highway 89 and 91 through Wellsville Canyon.

There are scattering stands of timber, including aspen, maple, and pine. The undergrowth consists of oak brush and sagebrush.

The principal use of the area is for watershed, along with livestock grazing, crop production, recreation and resort area.

The major improvements noted was the development of Sherwood Hills Resort area, with the expansion of bridal paths and 9 hole golf course.

The mean of a considerable number of observation of the magnetic declination through the township is  $15^{\circ} 30' E$ .

## CERTIFICATE OF SURVEY

(I) ~~XXX~~ Frank C. Profaizer, Jr., HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 23rd day

of July, 1980, (I) ~~XXX~~ have dependently resurveyed the north 1 mile of the west boundary of T. 9 N., R. 1 W., the west 1 mile of the south boundary, west boundary, west 2½ miles of the north boundary and a portion of the subdivisional lines with a partial subdivisional survey of sections 17, 20, and 29 of T. 10 N., R. 1 W.,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), ~~XXX~~ and under (my) ~~XXXX~~ direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

April 19, 1983  
(Date)

*Frank C. Profaizer Jr.*  
(Cadastral Surveyor)  
Supervisory
